A doubly linked list

Cost: 10 | Solved: 110

Memory limit: 256 MBs

Time limit: 1 s

Input: standard input

Output: standard output

Task:

You are given a sequence of numbers.

Make *a doubly linked list* from it and output it.

You must use <u>doubly</u> linked lists while completing this task.

Input:

A sequence of numbers.

Output:

The doubly linked list of numbers.

Example:

Input	Output
18 6 0 58 7 9 1 2 3	18 6 0 58 7 9 1 2 3
